

## 5.5 inch 9 ply color tissue cellulose coasters

The registration movement is 2 to 3 mm per color in any direction  
There will be a thin line on the edge of the coaster in one of your printed colors  
We do not recommend printing light colors on the color tissue, because light colors will change in shade.

### Tissue Color Options

|                                   |   |                                   |                                     |                                  |                               |
